[Install](#)
[Download Options](#)

Click install to download and activate your product. [Privacy Statement](#)

- When you click to download the software it will ask you if you want to download a 32-bit or 64-bit version. If you already have a 32-bit version of Office installed, you will need to download

the 32-bit version. If you already have a 64-bit version of Office installed, you will need to download the 64-bit version. If you do not have a version of Office installed, you will need to download the version that corresponds to your Operating System.

13. After clicking the Install button it will download an .exe file that you will need to run to start the actual download and installation of the software.
