

# District Technology Donation Guidelines

**Do you have an item to donate that meets the requirements listed below?  
Contact your local school or the District Office at (208)525-7500.**

We appreciate your willingness to help your local schools and want to provide you with information to help you determine if your equipment can be of use. When new equipment is purchased we follow standard purchasing procedures. The current District standard is HP or Apple computers and HP laser printers. This equipment is maintained, supported and repaired by District personnel. Standardization allows us to reduce costs related to staff time required for equipment repair and support.
